## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 2, 2009 has been entered.

### **Acknowledgment**

2. Applicant's amendment filed on February 2, 2009 is acknowledged. Accordingly claims 1-17 remain pending.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. **Claims 1-9, and 14-17**, drawn to a method of conducting a transaction between a first entity and a second entity where as part of the transaction the second entity requires information to assess a level of risk associated with transacting with the first entity, classified in class 705, subclass 74.
  - II. **Claims 10-13**, drawn to a method of purchasing insurance, comprising an insurer making its conditions for insurance available to a third party; a

customer making responses to insurance questions available to the third party, classified in class 705, subclass 50

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I, and II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable (MPEP § 806.05 (c)). In the instant case, invention I has separate utility such as a method of conducting a transaction between a first entity and a second entity where as part of the transaction the second entity requires information to assess a level of risk associated with transacting with the first entity. Invention II has separate utility such as a method of purchasing insurance, comprising an insurer making its conditions for insurance available to a third party; a customer making responses to insurance questions available to the third party. Furthermore the combination of group I and II, as claimed does not require the particulars of the subcombination as claimed because establishing the trust level of the second data processor could be performed without necessary need for purchasing insurance, comprising an insurer making its conditions for insurance available to a third party; a customer making responses to insurance questions available to the third party especially where the level of trust can be ascertained without making the request as required in invention II.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

because the search required for one group is not required for another group, restriction for examination purposes as indicated is proper.

6. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. §1.143).
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
8. Applicants are being afforded the courtesy of a written response due to the complexity of the case and the fact that no response was received after several telephone calls and messages.

### ***Conclusion***

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Charles C. Agwumezie** whose number is **(571) 272-6838**. The examiner can normally be reached on Monday – Friday 8:00 am – 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Calvin Hewitt can be reached on **(571) 272 – 6709**.
